INTRODUCING THE ARENDT INSIGHTS MOBILE APP: INSTANT ACCESS TO THE LEGAL DEVELOPMENTS IMPACTING BUSINESS IN LUXEMBOURG

Developed in response to the Covid-19 crisis, the Arendt Insights app brings business law, tax and regulatory updates directly to every user's smartphone or tablet.

"At a time when the flow of information is always expanding, this app is a smart alternative for users to stay informed about these topics without a flood of emails."
(Jean-Marc Ueberecken, Managing Partner).

Arendt Insights targets a wide audience spanning many professions and sectors that are important for Luxembourg: actors in the fund industry, banking and financial sector professionals, entrepreneurs, company management and legal counsels, businesses of every size, from start-ups to multinational companies. It is also a perfect tool for journalists and professional associations to ensure they'll be warned and instructed about complex legal developments.

The app notifies its users as soon as an update occurs.

The Covid-19 crisis as a trigger

Arendt Insights is the only app dedicated to Covid-19 crisis management in Luxembourg.

The first version of the app has been designed to give insight from Arendt experts, using the Covid-19 Solutions platform. It features frequently asked questions by clients and other contacts, together with expert answers, opinions and advice on all matters related to the crisis. Each answer includes a

team to reach out to for further assistance.

To date, Arendt Insights contains answers to more than 100 questions surrounding Covid-19. Its 14 sections are organised by field of activity or related to specific situations, ensuring quick access to the information. It also features a one-of-a-kind library of over 100 links to information on legislative decisions, and other useful documents from professionals, authorities and government.

"At Arendt, we know it is crucial to keep our contacts informed about what the impacts of a specific development will be, and how they can benefit from it. Here we have developed a new channel for doing this, in closer to real time than ever." (Jean-Marc Ueberecken, Managing Partner)

The next version of the app is currently under production and will provide additional interactive and multimedia content, as well as a calendar of upcoming topical events by Arendt.

Arendt Insights offers first-class service, in an instant. Users have Arendt's expertise at their fingertips, 24 hours a day.

Arendt Insights is available free of charge in the App Store (for IOS systems).
The Android version is currently in development.
