

TELINDUS: FREE ACCESS TO SMS GATEWAY

During the lockdown period, Telindus offers companies free access to its SMS bulk sending platform

During this period of confinement, distance can make communication complex.

Even more than in normal times, companies need to convey important information to their employees or customers just as directly and simply as possible.

Among all the existing means of communication, SMS remains the most direct and most read !

Therefore, to help companies to handle the communication challenge during the lockdown in Luxembourg, Telindus grants them access to all the functionalities of SMS Gateway, its platform of bulk SMS dispatch management.

[Discover all the features of SMS Gateway](#)

To activate its access to the SMS Gateway portal, please just contact your usual spokesperson person at Telindus, or [register via our SMS Gateway webpage](#)

This release is not a binding commitment, all additional information about this offer, the solution and its implementation will be provided to you.
