CFL CARGO PURCHASES BOMBARDIER TRANSPORTATION'S TRAXX MS LOCOMOTIVES

CFL CARGO PURCHASES BOMBARDIER TRANSPORTATION'S TRAXX MS LOCOMOTIVES TO FURTHER EXPAND INTO THE EUROPEAN RAIL MARKET

- Innovative TRAXX locomotives enable CFL cargo to operate non-stop between Central Europe and France
- A breakthrough for the European East-West freight corridor, authorization also covers Belgium and Luxembourg.

Berlin/Luxembourg, 18. November 2020 – Mobility solution provider Bombardier Transportation has signed a contract with the Luxembourg based railway undertaking CFL cargo for ten innovative *BOMBARDIER TRAXX MS*¹ locomotives.

The new locomotives represent a major leap towards the successful future of integrated rail freight transport in Europe as they will enable seamless cross-border transport from Central Europe to France. The locomotives will be authorized for service in Luxembourg, Germany, Poland, Austria, Belgium and France. A part of the ten new locomotives for CFL cargo will be equipped with the innovative Last Mile diesel concept that enables the *TRAXX* locomotive to operate in non electrified terminals and sites.

“We are very pleased to be the first railway operator to expand its business offering with an optimized rail transport solution for the East-West European corridor. The new *TRAXX* multi-system locomotives will allow us to cross numerous borders as easily as a truck, thus providing our clients with a competitive transport solution that contributes to reaching the European New Green Deal objective of 30% of rail transport by 2030”, said Laurence Zenner, CEO of CFL cargo.

“Together with our launch customer CFL cargo, we are proud to offer an innovative solution that opens new business opportunities for rail transport clients. Our *TRAXX MS* locomotive is Europe's most- modern locomotive and we are looking forward to support the expansion of East-West freight transport in Europe”, added Peter Ammann, Head of Global Business Development Locomotives, Bombardier Transportation.

Bombardier has based the development of its next-generation *TRAXX 3* locomotive on the proven successes of previous members of the *TRAXX* family. To date, more than 2,000 of these locomotives are operating in 20 countries, covering a combined distance of 300 million kilometres per year.

CFL cargo is already operating in 6 countries in Europe and is specialized in international and cross- border traffics. Together with its sister company CFL multimodal, the railway operator addresses both the conventional and the intermodal market and enables to smoothly connect Luxembourg by rail to the major ports and economic centers in Europe.

¹ *MS stands for multi-system, an electric locomotive able to operate on AC and DC railway electrification systems – often needed for cross-border operation.*

ABOUT CFL CARGO

CFL cargo, together with its sister company CFL multimodal, is a service provider that covers the entire multimodal supply chain. With a European presence of 12 companies located in 6 countries, CFL cargo and CFL multimodal offer a range of transport and logistics services to meet the specific needs of their customers: combined and conventional rail transport, wagon maintenance, road transport and chartering, warehousing, tailor-made logistics services and customs agency.

As a railway company and with the support of its subsidiaries in France, Germany, Denmark and Sweden, CFL cargo serves many of the most important European rail axes. More information available at www.cfl-mm.lu.

ABOUT BOMBARDIER

With nearly 60,000 employees across two business segments, Bombardier is a global leader in the transportation industry, creating innovative and game-changing planes and trains. Our products and services provide world-class transportation experiences that set new standards in passenger comfort, energy efficiency, reliability and safety.

Headquartered in Montréal, Canada, Bombardier has production and engineering sites in over 25 countries across the segments of Aviation and Transportation. Bombardier shares are traded on the Toronto Stock Exchange (BBD). In the fiscal year ended December 31, 2019, Bombardier posted revenues of \$15.8 billion.
