SPACE CARGO UNLIMITED S.A.S.

DESCRIPTION

Space Cargo Unlimited is a European startup founded in 2014 in Luxembourg. Space Cargo Unlimited has been at the forefront of leveraging microgravity research and in-space manufacturing, pioneering a new era of commercial access to Low Earth Orbit (LEO). Over the past decade, Space Cargo Unlimited has developed, launched, and operated three space flights, including two long-duration ISS missions, overcoming significant technical, logistical, and regulatory challenges — among which multiple payload hardware design & development, painstaking safety approvals, months-long flight delays, incidents during flight, complex customs processes for payload retrieval and complex cross-border coordination.
