CLEAN SOMETHING FOR NOTHING S.À R.L.-S

DESCRIPTION

Clean Something For Nothing operates a mobile app that mobilizes individuals, companies, municipalities, and schools globally to participate in local cleanups. The app facilitates, tracks, and validates cleanup activities, promoting environmental stewardship and community engagement. Our business model relies on a subscription based model for the use of the app: - Companies: subscribe to use the app as a volunteer tool for their employees. We also offer sponsorship packages to plant 1 tree per KG of trash collected, helping companies offset CO2. - Municipalities: we provide an action tool for communes to raise awareness and activate their citizens to be part of the solution by picking up litter or by alerting of illegal dumps. - Schools: we promote cleanup challenges among the students in a fun and educative way.
