CIRCU LI-ION S.A.

DESCRIPTION

Through our automated battery & cell upcycling process we give batteries a useful 2nd life, capturing the true value of still functioning resources – saving money & the planet (- 48 % battery emissions compared to a single lifecycle). That process is able to recover up to 80% of end-of-life battery cells and components, creating an ecosystem of reuse to enable a sustainable battery industry. Powered by AI and machine vision we are continuously building the largest battery database.
