GEMOLUX S.À R.L.

DESCRIPTION

Gemolux is a company specialized in complex construction project management. The company is involved in particular in OPC (Ordering Piloting Coordination) missions, works management, execution project management or AMO (Project Management Assistance) missions. Gemolux is currently in charge of OPC and works management missions on the Jean Monnet 2 project (the future premises of the European Commission on the Kirchberg plateau) and on the CBK3 project (extension of the BGL-headquarters). BNP Paribas, also on the Kirchberg plateau). Essentially employs experienced engineers and architects and can also count on the support as well as the expertise of its French partner company, Gemo, a company established in Paris for more than 50 years and having carried out emblematic works such as the Grande Arche de la Défense, the Philharmonie de Paris, the Quai Branly Museum, aso.
