CRAB TRACEABILITY SYSTEMS S.À R.L.

DESCRIPTION

CRAB turns complex waste streams into clear, actionable data using mobile AI camera systems and adaptable software. Our portable technology replaces manual audits and fixed installations, making quality control and material tracking easier, faster, and more scalable. From packaging to residual waste, from bulky to deconstruction, we deliver tailored AI models that recognize and classify materials in real time, directly in the field or at your site. The result: structured reports, automated documentation, and smarter decisions across operations. CRAB empowers industry to measure resources, prove quality, and act on data, wherever it's needed.
