# 2022 ANNUAL REPORT

With the outbreak of the war in Ukraine and the subsequent energy crisis, the year 2022 was marked by a dramatic acceleration of the inflationary trend. As a result, many of our companies were faced with multiple uncertainties and even serious consequences related to the rising cost of energy and raw materials. In this exceptional situation, the priority for the FEDIL team was to remain attentive to the needs of our member companies and to double our efforts to accompany and inform them in all our fields of expertise.
