SHARE YOUR PERSPECTIVES ON AI AND GENERATIVE AI

Summary / Content

WHY IS THIS SURVEY IMPORTANT?

THE SURVEY IN A NUTSHELL

Building on the success of the 2025 edition, FEDIL, in partnership with the Luxembourg AI Factory and Luxinnovation, is pleased to relaunch the survey exploring the level of adoption and impact of Artificial Intelligence (AI) and Generative AI (GenAI) in the industry.

WHY IS THIS SURVEY IMPORTANT?

We need your input to:

- Understand the current use of AI and GenAI in companies and how it has evolved over the past year;
- Assess the current level of AI technology adoption and the changes observed since 2025;
- Identify new or persistent barriers, challenges, and opportunities related to AI adoption;
- Pinpoint additional needs in terms of training, upskilling, and funding to boost competitiveness and innovation.

Your participation is especially valuable in 2026, as a comparative analysis of the results with those from the 2025 edition will be conducted. This analysis will allow us to concretely measure the evolution of AI adoption in Luxembourg's industry: progress made, new challenges encountered, emerging trends…

Thanks to your feedback, we will be able, on the one hand, to better understand the real impact of AI on our ecosystem, identify specific opportunities and obstacles to its adoption, and adapt our policy recommendations, and, on the other hand, to support the development and implementation of resources and

new initiatives tailored to the needs of companies.

Your contribution is therefore essential to guide the actions of FEDIL and its partners and accelerate AI integration in Luxembourg.

THE SURVEY IN A NUTSHELL

- **Response time:** 15–20 minutes.
- **Confidentiality:** responses are completely anonymous.

Take the survey now

Deadline: 13 March 2026

Help us expand the survey's reach: To ensure we capture a complete and representative picture, we kindly invite you to share this questionnaire with other contacts within your company. Their input will contribute to the quality and accuracy of the findings. Thank you for your support.

For any questions, please contact celine.tarraube@fedil.lu.

Thank you for your time and valuable contribution.
