## JOB OFFER 1

### JOB TITLE

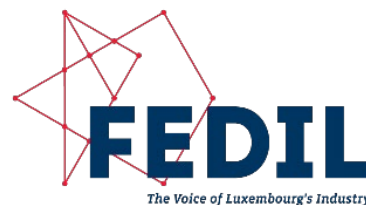

**PROCUREMENT ENGINEER STEEL STRUCTURES**

### FUNCTIONS

- You will be preparing and coordinating tender request packages (RFQs) through all tender stages.
- You will align all relevant procurement activities within a multi-disciplinary EPCI project team (including design team, tender team, contracts managers, technical experts and fabrication managers).
- You manage all relevant aspects of the tendering process with the involved supply chain including development and negotiation of all commercial and contractual terms and conditions, technical requirements, project planning and compliance with relevant QHSE standards.
- You identify and analyze procurement related risks and opportunities.
- You are responsible for the preparation of tender evaluation reports, shortlisting, and award proposals.
- You maintain and develop reliable and trustful relationships with all major parts of DEME's supply chain.
- You monitor all relevant industry trends with a view to constantly adopt current best practices and to support our Category Management in its strategic development of sourcing strategies.
- You support the Tender Package Manager with all necessary data and analytics for budgeting activities.
