If YES, please specify which ones: Annex 1 :

Annex 2:

Annex 3:

Brief description (summary) of the project (about ½ page)

Development phase (idea, prototype, in place or on the market...)

Part 2. “Environmental Management” application information

Could you provide copies of mission statements, policies, codes of conduct etc., which demonstrate the degree of commitment of your organisation to strive for excellence in its environmental (social and ethical) performance?

Give examples of objectives and targets for improving the environmental (social and ethical) performance of your organisation and demonstrate how these have been derived from the mission.

What mechanisms are in place to monitor environmental performance and report on progress against targets?

How do the above mechanisms or management systems relate to or are integrated into the overall management systems of your organisation?

Based on the answers to the previous questions, please demonstrate the improvement in your organisation's environmental performance against key targets.

To what extent has the management of environmental and social affairs contributed to the good financial performance of your organisation?

What steps have you taken to consult or collaborate with stakeholders on environmental (or social) issues related to your organisation's activities?

What mechanisms are in place to ensure that the views of interested parties are taken into account?

What measures are taken to ensure the involvement of staff at all levels in environmental management?
